## Explanations to the Scale of Fees of

Per member a partner is designated.

Controlling bodies, which consist of individual legally independent subsidiary organizations, as for example entrepreneurial groups, which consist of individual societies, can request a group membership. Independent subsidiary organizations are not automatic members with membership of the holding.

The group membership results from a possible membership of the controlling body. As a controlling body a super ordinate organization is considered, not any union from individual organizations. The controlling body pays the full its contribution category to appropriate membership fee. The potential new member from a subsidiary organization has the possibility to attend for 50% reduced conditions regarding his regular membership fees. There is the possibility of the recourse to of all the full members being entitled privileges. The right to vote remains with the controlling body. If the right to vote is nevertheless desired, regular individual membership is requested.

Individuals cannot be requested also a partial membership with that the right to vote as well as the privileges for auditor training courses and project certifications is not granted, the benefit of all other advantages comes with the partial member however. This concerns the integration into the information process of EGNATON, the possibilities for the co-operation and the other privileges for meetings etc.

For promotion members after §7 exp. 6 of the statute until further notice in principle a contribution is raised at a value of 1.000 €.

The contributions understand themselves plus the valid VAT.
